Next Sunday

- Weather permitting, everyone is invited to Steve Esterline's yard to sing. And we might have lunch in a park beforehand.
- Additionally, the elders would like to meet right after services with class teachers. We are considering new class material, and we would like to hear from you. We hope all those who have taught using the *Take Time to be Holy* books will participate. If we make a change, could we get together and create our own material to continue going through the Bible, or would we look for a different series to purchase? Those are things we want to consider. We will keep the meeting brief, but we want to get the conversation started.
